Sub: **COMPUTER**

Time: 3 hours

Marks : 50

SUMMATIVE ASSESSMENT 2

I. Fill in the blanks.

8 x 1 = 8m

1. To animate an object on the slide, click on the _____ tab.
2. _____ Key is pressed to view the slide show.
3. _____ Appear when one slide changes to another during the slide show.
4. The set of sequential steps to solve any logical (or) mathematical problem is called _____
5. The beginning (or) ending point of a flow chart is represented by _____ box.
6. The _____ block is used to iterate a set of commands for a given number of times.
7. Keeping some blocks inside other blocks is called _____ of blocks.
8. The _____ category blocks are used to sense the keyboard input.

Hint : Sensing, nesting, repeat, start/top, algorithm, transitions, F5, Animations.

II. State "T" for true' "F" for false.

8 x 1 = 8m

9. You cannot add more than one animation to the same object.
10. Transition effects give motion to the text and pictures.
11. A slide master consists of two placeholder's
12. Different symbols are used in a flowchart.
13. An algorithm may contain infinite number of steps.
14. The Go button is clicked to run the script.
15. In scratch the actions of one sprite can affect the other.
16. The sensing blocks are colour-coded with a light blue colour.

III. Select the correct answer.

8 x 1 = 8m

17. Which tab has the slide master option? _____ []
- a. view b. design c. animations
18. The _____ effects can be added to the objects on a slide []
- a. transition b. animation c. sound
19. While recording your sound, it is essential to connect _____ []
- a. Microphone b. speaker c. pendrive
20. The _____ box is used for writing the processing instructions and doing calculations. _____ []
- a. decision b. flow c. processing
21. In a flowchart _____ indicate the direction of flow of a program. []
- a. terminators b. connectors c. flow lines
22. The condition given in the if block is a _____ expression that return either true (or) false. []
- a. repeating b. Boolean c. recursive
23. Which among the following is not a control block? _____ []
- a. If-then b. forever c. hide
24. The question asked in the ask () block appears in a _____ on the screen. []
- a. Voice bubble b. square box c. rounded box

IV. Indicate 'I' for input, 'O' for output

8 x 1 = 8m

- | | | | |
|--------------|--------|-----------------|--------|
| 25. Keyboard | [] | 29. Joy stick | [] |
| 26. Monitor | [] | 30. Head Phones | [] |
| 27. Mouse | [] | 31. Scanner | [] |
| 28. Speaker | [] | 32. Printer | [] |

V. Match the following.

6 x 1 = 6m

	System and Security
	Network and Internet
	User Accounts
	Programs
	Clock and Region
	Appearance and Personalization

VI. Answer any 4 questions.

4 x 3 = 12m

33. Define slide transitions?
34. What is an algorithm?
35. What is the use of the decision box?
36. Describe the use of control blocks briefly?
37. What is the use of if-then-else block?
