

**PCMR EM
SCHOOL**

SUMMATIVE ASSESSMENT - 3

Name :

Class : 8TH

Section : ALL

Subject : PHYSICAL SCIENCE

Marks : 50

Time : 3 Hours

I Answer the following questions.

6×1 = 6 M

1. Define Fossil Fuel?
2. Name the Petroleum product used for surfacing of roads?
3. What is meant by combustion?
4. Define Atmospheric pressure.
5. Define Interlocking?
6. Define Poor conductor of electricity.

II Answer the following questions.

4×2 = 8M

7. How is coal gas obtained? What is its use?
8. List conditions under which combustion can take place?
9. Define Contact force & give one example.
10. Does Pure water Conduct electricity? If not, what can we do to make it Conducting?

III Answer the following questions.

3×4 = 12M

11. Draw the diagram that shows different zones of candle flame?
12. Write the difference between Exhaustible and in Exhaustible Resources?
13. Write an alternative device to check even weak electric current flow. (Led, tester Question)

IV Answer any three of the following questions.

3×8 = 24 M.

14. Where do we get coal from and how it is formed?
15. How do you prove the Air is necessary for combustion?
16. Can a force change the state of motion? Explain with suitable examples.
17. a) Draw a labelled sketch of a human eye. b) Differentiate between Regular & diffused reflection.
18. Suggest three measures to protect ourselves from lightning & what are lightning Conductors? How do they work?
