

**PCMR EM
SCHOOL**

SUMMATIVE ASSESSMENT - 3

Name	:	
Class	:	5 th
Section	:	ALL
Subject	:	SOCIAL SCIENCE
Marks	:	100
Time	:	3 Hours

Part - A

I. Answer the following questions.

10x1 = 10m

1. Which is the longest latitude?
2. What is the difference in time between two consecutive lines?
3. What is Biosphere?
4. Name the longest river in the world.
5. Name the largest river in the world.
6. Who are Inuits?
7. What is the comfortable range of decibels for human ears?
8. Name five natural resources.
9. Who built Taj Mahal?
10. Who is the Chief Minister of Andhra Pradesh?

II Answer the following questions in 1 or 2 sentences.

8 x2 = 16m

11. What are latitudes?
12. Name three living and three non-living components on Earth.
13. What are oceans?
14. Name three factors affecting climate of a place.
15. Name three hot deserts and two cold deserts.
16. What are harpoons?
17. What is pollution?

24. Do people live in Antarctica? If yes, where?
25. What is air pollution?
26. What are the 3 Rs? What is the fourth R? Give an example.

IV Creative expression

2x5 = 10m

27. Draw important latitudes with diagram.
28. Name the Heat zones with diagram.
29. Mark Asia, Africa, Australia, Antarctica on the given world map.

Part - B

V Circle the correct answer.

5x1 = 5m

1. The (**scale / sign**) shows the distance between places on the map.
2. A leap year has comes after (**3 / 4**) years.
3. (**Thematic / Political**) map shows countries, states, cities, villages and towns.
4. The network of lines that the latitudes and longitudes form is a (**parallel / grid**).
5. (**Antarctica / Africa**) is the second largest continent.

VI Fill in the blanks using the hint box.

10x1 = 10m

four | Equator | orbit | three | Antarctic | temperate | Anaconda | Sahara |
Subarctic | Fog

1. There are _____ main directions on a map.
2. The 0° atitude is the _____.
3. The Earth revolves around the sun in a fixed _____.
4. Lithosphere has _____ layers.
5. Southern Ocean is also known as the _____ ocean.
6. Prairies experience _____ climate.
7. The _____ is the largest snake in the world.
8. The _____ is the largest desert in the world.
9. Coniferous forests spread across the _____ belt in Canada.
10. _____ is a ground-level cloud composed of tiny ice crystals.

VII Match the following.

5x1 = 5m

- | | | |
|-------------------------------|---|-------------------------------|
| 1. Biosphere | [|] a. Globe |
| 2. A small model of the Earth | [|] b. Southern ocean |
| 3. Equator | [|] c. Dark Continent |
| 4. Antarctic ocean | [|] d. Sphere where life exists |
| 5. Africa | [|] e. 0° latitude |

VIII Write 'T' for True and 'F' for False.

10x1 = 10m

- | | | |
|--|---|---|
| 1. The Torrid Zone has a hot and humid climate. | [|] |
| 2. Tribals live a settled life. | [|] |
| 3. Equatorial forests are densely populated. | [|] |
| 4. Ebony, Mahogany and rosewood are some tree species found in the rainforest. | [|] |
| 5. Tribes in the equatorial region practice commercial farming. | [|] |
| 6. Rotation and revolution take place alternately. | [|] |

- | | |
|---|--------|
| 7. Revolution is primarily responsible for causing tides. | [] |
| 8. A leap year has 366 days. | [] |
| 9. If it is night in India, it would be night in the USA. | [] |
| 10. If 29 December is included in the year it would be a leap year. | [] |

IX Choose the correct answer.

5 x 1 = 5m

1. Aurora observed in the Arctic region is called _____. []
 a. Aurora mirabilis b. Aurora borealis c. Aurora australis d. Aurora antarctica
2. Native tribes living in the polar regions are called _____. []
 a. Gauchos b. Mongols c. Inuit d. Banjara
3. Gobi desert is an example of _____. []
 a. hot desert b. cold desert c. temperate desert d. equatorial desert
4. The equatorial region falls in the _____ zone of the Earth []
 a. Torrid b. Temperate c. Frigid d. Polar
5. The wind that blows from the land to sea is known as _____. []
 a. sea breeze b. evening breeze c. land breeze d. dusk breeze

X Mind Mapping.

5x1 = 5m

Identify the animals and arrange them in respective columns.
 Insert pictures of:

Land	Air	Water
