

**FORMATIVE ASSESSMENT – 3**

Name of the Student: _____

Class : 5th

Sec:

Sub: COMPUTER

Time: 1.30m

Marks : 25

I. Answer any TWO questions**2 x 2 =4m**

1. What is a slide master?
2. Define flowchart?
3. What is an algorithm?

II. Fill in the blanks.**5 x 1 =5m**

1. To animate an object on the slide click on the _____ tab.
2. _____ Key is pressed to view the slide show.
3. The beginning or ending point of a flow chart is presented by _____ box.
4. The _____ box is used to apply a condition in a program.
5. _____ Are used to join one part of the flowchart to another.

Hint : Connectors , Decision , Terminator , F5 , Animations.**III. Write T for True, F for False****5 x 1 =5m**

1. Any changes made in the slide master page automatically reflect on every slide. []
2. Transition effects give motion to the text and pictures. []
3. Different symbols are used in a flowchart. []
4. An algorithm may contain infinite number of steps. []
5. Step wise thinking helps in converting complex task into simple ones. []

IV. Select the correct options.**5 x 1 =5m**

1. Which tab has the "Slide master" option? []
a. view b. design c. animations
2. The _____ effects can be added to the objects on a slide. []
a. Transition b. animation c. sound
3. Which among the following is not a category of the animation effects? []
a. entrance b. emphasis c. paths
4. An algorithm is always written in a _____ language. []
a. Difficult b. simple c. binary
5. The _____ box is used for writing the processing instructions and doing calculations. []
a. decision b. flow c. processing

V. Read the passage and analyze to give correct answers for given questions.**6 x 1 =6m**

A Computer is an electronic machine. There are 5 generations of computers. Charles Babbage is widely considered the father of the computer. A computer has four main parts i.e..CPU, Memory (RAM, storage, and Input / output (I/O) devices. It stores a wide range of data (or) information and the key board is used for give input to computer. Printer gives and output is known as print out.

1. A computer is _____ device []
a. **Mechanic** b. **Electronic** c. **Monitor**
2. The father of computer is _____ []
a. **Michale Jackson** b. **Anil Kumble** c. **Charles Babbage**
3. Key board is an _____ device. []
a. **output** b. **input** c. **a and b**
4. The printer gives an output is _____ []
a. **printout** b. **print in** c. **print in**
5. The computer mainly having _____ parts. []
a. **two** b. **one** c. **four**
6. How many types of computer generations. []
a. **2** b. **4** c. **5**
